Modernizing Studying

CircleIn
CircleIn is Student Led

Our student-centered model is peer driven and designed to be "hands-off" for faculty.

✔️ Nothing for Faculty to Manage

That's right, once CircleIn is enabled for your class, we take care of the rest. Our NSF backed model focuses on peer-to-peer support and does not need to be managed or monitored by faculty. Students naturally collaborate and support each other, just like they would in a library or coffee shop.
What is CircleIn?

CircleIn is the place where students study remotely, where they collaborate, where they communicate, and where they stay productive. CircleIn creates the space for students to brainstorm together, just like they would on campus or at a friend's house.
Digital Collaboration + Studying Apps that Drive Student Success

Students have access to a variety of studying apps and features all in one convenient place.

**Ask Questions**
- Students can easily connect with strong students or SI's to get the help they need.

**Share Resources**
- Students have access to top rated academic content and can save useful resources.

**Exam Prep**
- Multiple features that allow students to learn better and faster.

**Video Studying**
- Live group video chats for deeper levels of support.

**Task Management**
- Study can easily manage all their assignments and projects.

**Study Groups**
- Auto-generated class group chats for every section. Unlimited study groups for topics or classes.
Our NSF-backed model, utilizes gamification elements to empower students to stay productive, stay connected, and always get the help they need. CircleIn reinforces positive student study habits through a combination of intrinsic and extrinsic motivators.
Drive Productivity

Students are incentivized to organize their workflow and move tasks to "Done".

Expert Support

CircleIn promotes existing support services that your school currently offers where they can get additional support.
What Are Students Saying About CircleIn...

64.4% gain more confidence in their ability to pass their courses.

65.7% of students experience an increase in productivity.

71.2% of students have recommended CircleIn to their classmates.

Best Practices for Creating Awareness

1. Learn how CircleIn will support your students
   - Ensure you and your students are able to get the most value of our CircleIn
   - Understand how students will be engaging on CircleIn
   - Learn how other faculty members are leveraging CircleIn to overcome specific challenges they are facing in their class(es)

   Option 1: Learn at your own pace inside of your Faculty Hub
   Option 2: Schedule a call with a success coach

2. Announce CircleIn to your Students
   Help your students get started by using multiple communication streams to make sure your students know they have access to CircleIn. See Resources for email template:
   - Email
   - Live Lecture
   - LMS Announcements
   - Office Hours

   Faculty Pro Tip #1
   Use the recommended resources below to announce CircleIn to your students

   Faculty Pro Tip #2
   Add CircleIn as a class assignment to encourage your students to download the app.
